

Madvac 61 Litter Collector

Specifications

Machine Type:	Portable vacuum litter collector
Vacuum System:	Straight-through suction with no restrictions, compacted within collector bag, litter does not pass through the vacuum fan
Static Pressure:	30" of water gauge pressure
Suction Pressure:	55+ mph
Container Capacity:	60 gallon capacity
Hose:	8" diameter, 25' long, clear PVC
Engine:	Kubota, 13.8 HP liquid cooled

Standard Features:

- 14 HP Kubota liquid cooled diesel engine
- Key start with integral glow plug
- 6 gallon fuel tank
- Patented no-jam fan does not come in contact with litter
- Infinitely variable speed vacuum litter system
- High performance 1,900 CFM vacuum system
- 120 gallon debris capacity into 80 gallon bag
- Approximately 2:1 self compacting vacuum system
- Anti-wear fan and fan casing with lifetime warranty
- All welded steel litter container
- 25' x 8" diameter vacuum hose
- Wanderhose load relief operating harness
- Storage rack for vacuum hose
- Low tilt position litter container
- Wrap-over quick bag removal
- Storage compartment for bags and tools
- 12V electrical system
- Gauges: fuel, water temperature, oil pressure and hourmeter
- Flashing strobe warning light
- All welded steel frame with forklift access
- Water drains in debris container
- Powder coated finish in factor white
- Handheld lightweight PVC nozzle

Product Options:

Application Options:

- Trailer conversion kit

Performance Options:

- 360° rotating vacuum hose support boom
- Additional 8" x 15' hose extension
- Additional 8" x 25' hose extension

Machine Protection:

- Engine warning system

Safety Devices:

- Strobe light – upgrade

Miscellaneous Options:

- Custom paint color – (white – standard)
- Bagless debris system – Kevlar

- Spare wheel mounted on trailer

- 5" x 25' handheld Wanderhose system c/w 8" reducer
- Additional 5" x 15' hose extension

- Emergency stop button

- 44" x 52" garbage bags – 3 mil (50 bags)
- Collector bags (100 bags)
