

## Trek Torsion TB4 Automatic Scrubber Specifications

### Machine Dimensions:

Height:	49"
Length:	75.2"
Effective Length:	45.3"
Width (body):	24"
Width (w/ scrub head):	26.7" – 30.7" – 34.7"
Width (w/ squeegee):	34.5" – 38.5" – 42.5"
Weight (w/ batteries):	800 lbs

### Scrubbing System:

Scrubbing path:	24" – 28" - 32"
Scrub brush / pad:	2 disks
Motor / disk:	0.75HP
Brush speed:	200 rpm
Down pressure:	0-200 lbs

### Recovery System:

Solution tank:	40 gallons
Recovery tank:	40 gallons
Demisting chamber:	13 gallons
Vacuum fan:	0.8HP

### Propelling:

Transaxle motor:	0.4HP
------------------	-------

### Torsion SUR Value Points:

#### Articulated Steering System:

Dramatically improves handling ease & maneuverability. Provides complete cleaning & water pick up.

#### TC (Total Control) Zone:

Steering system provides safety & productivity. Easy to use work environment.

#### Water Capacity:

TORSION holds twice as much water as competing machines. Provides up to 100% productivity gain. Reduces time filling and emptying tanks. Shortens completion time on jobs.

#### Chemical Scrubbing Technology:

Extend scrubbing time up to 400%. Use TORSION's marathon chemical scrubbing technology. Quick-Pak detergent cartridge increases productivity (optional).

#### Wide Four-Wheeled Base:

TORSION's four-wheeled base provides traction & stability. Four wheels, no casters to damage floor surfaces.
